

MEMORANDUM TO: Deputy Director (Plans)

SUBJECT : Analysis of Project [REDACTED]

25X1A2d1

1. As you know, when a project is terminated, the Comptroller thru his Program Analysis Staff recaps the financial history of the project along with pertinent operational data.

2. This is done with two thoughts in mind, (a) providing a complete historical record, and (b) highlighting particularly good or bad points of operational or administrative handling. It is hoped that eventually these analyses will provide a body of experience which will increase the effectiveness of both operations and administration.

3. I am forwarding herewith the analysis of Project [REDACTED]. It appears that the types of weakness pointed out are of a general nature and could apply to many other projects. Therefore this report may be helpful to those officials in your area who are engaged in similar activities.
